CatchCam *Deep*

Robust Fishing Camera

Remove the guesswork from fishing with underwater video.

CatchCam *Deep* lets you record colour videos from within your fishing gear down to 800m underwater. Use CatchCam to see if your gear is working properly, increase your catch and reduce bycatch.

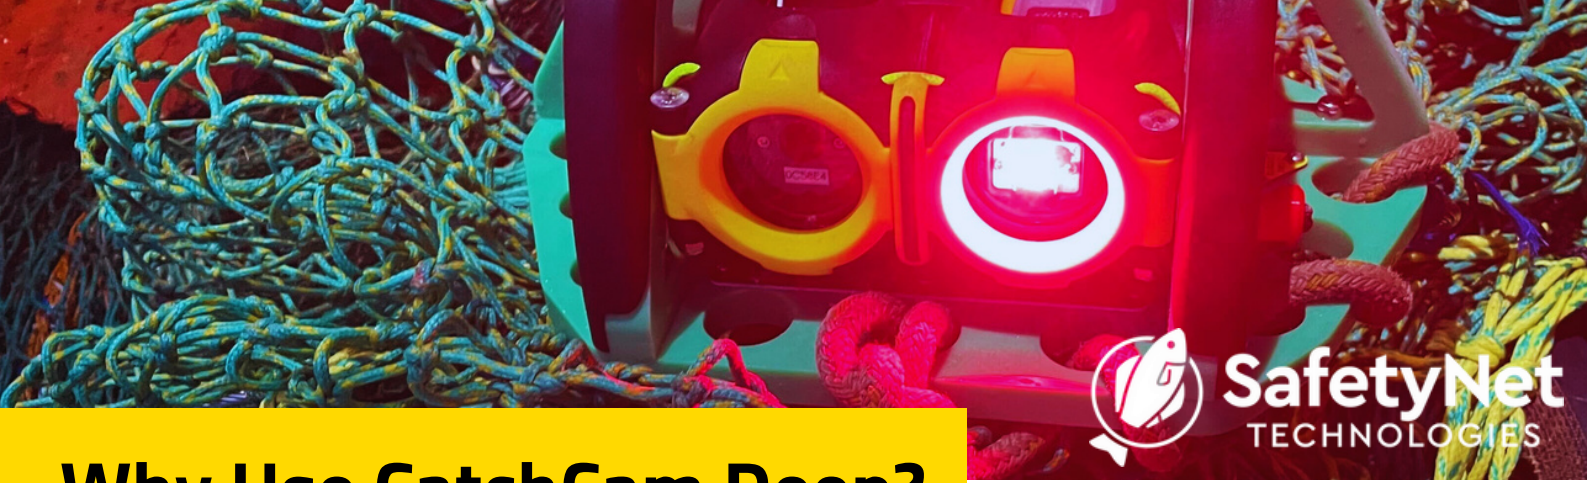

Benefits

- Robust enough to withstand trawling
- Deployable up to 800m underwater
- Fits to all fishing gear types
- 128GB of video storage
- Wireless video management
- Up to 100hrs battery life

TECHNOLOGIES

Why Use CatchCam Deep?

800m Depth Rating

The Camera and LED Lamp have a no-open design to reach depths of up to 800m.

4x Brighter Lamp

The upgraded LED Lamp makes the videos even brighter at any depth.

100hrs of Recording

With CatchCam you can record up to 100 hours of footage on a single charge.

Easy Video Management

With 128GB of storage, you can organise and view videos on the CatchCam App.

Highly Robust

Despite its small size, CatchCam is tough enough to withstand the inside of a scallop dredge.

Wireless Transfer

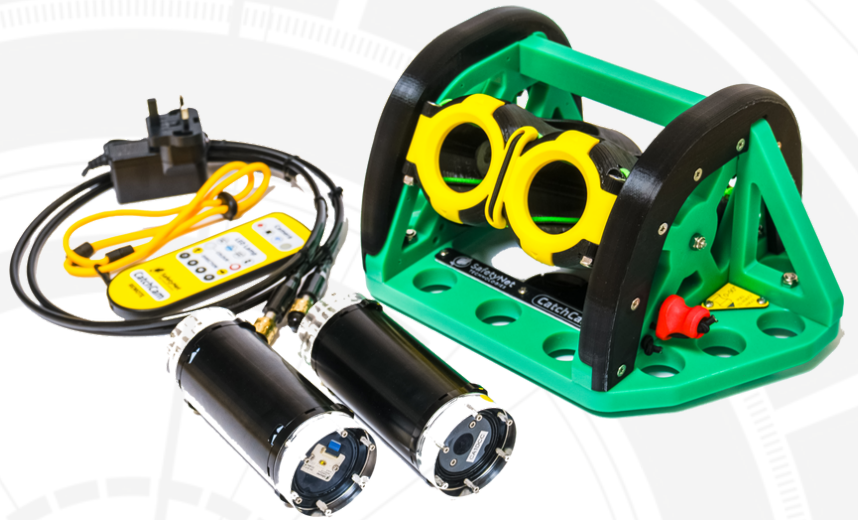

Use WiFi to transfer videos from the CatchCam Camera to the App.
